HOW TO WEIGH AND PAY

Volumetric weight

You may be sending a large, lightweight shipment where its volumetric weight exceeds its actual weight. If so, the cost of the shipment is calculated on the space your consignment takes up on the aircraft. This is a standard IATA method.

To calculate the volumetric weight of your shipment simply multiply the length (cm) x height (cm) x width (cm) of the shipment package and divide the result by 6000.

Payment for DHL services

You can pay for DHL services either in cash, credit card or via bank transfer. You can open an account with DHL to pay via bank transfer. All account customers receive invoices on a pre-determined basis. For more details please get in touch with a Customer Service Advisor at your local DHL office or go to www.dhl.co.tz

DHL reserves the right to charge additional fees for services not specified in this guide.
